FOR TRAVEL DESIGNERS AND DMCS

Private flights for *your clients.*

When a journey you are planning needs a private flight, send the request to us. We place it with one trusted charter partner, and the proposal comes back to you, not to your client.

HOW IT WORKS

1 **Send the request**

Fill in the request form at halvett.com with the journey details and your own contact details.

2 **Confirmation at once**

A confirmation with a reference number arrives straight away.

3 **The proposal comes to you**

Our charter partner replies to you with aircraft options and price, normally within a few hours and by the next working day at the latest. You present it to your client.
